

ABOUT US

Kadi Sarva Vishwavidyalaya:

Kadi Sarva Vishwavidyalaya (KSV) is a University established vide Gujarat State Government Act 21, 2007 in May 2007. The university has been setup by Sarva Vishwavidyalaya Kelavani Mandal; a trust with more than 90 years of philanthropic existence. The trust provides need based education by developing courses of contemporary relevance.

KSV is a university of excellence promoting research based activities which would foster higher economic growth.

K. B. Institute of Pharmaceutical Education & Research (KBIPER), Gandhinagar:

KBIPER is a constituent college of KSV, established in 1995. The institute offers B. Pharm., M. Pharm., Pharm. D., Pharm. D. (PB), and PhD in Pharmaceutical Sciences. KBIPER is the first institute to start Pharm. D course in Gujarat in the year of 2009-2010.

Institute has established the first Drug Information Centre in Gujarat. Through the scholarly pursuits of teaching, research and service, KBIPER is dedicated to create pharmacy professionals committed to lifelong learning, fostering excellence and innovations in research, developing and participating in professional practice and community outreach.

Current scenario of Regulatory Affairs:

Regulatory affairs is involved actively from early stage of development to post marketing activities of new and existing products. This department is one of the integral parts within the organization structure of pharmaceutical industry. Internally it collaborates at the interphase of drug development, manufacturing, marketing and clinical research. Externally it is the key interface between the commercial industry which undergoes drug development to clinical research and the regulatory authorities. The conference aims to bring together the academicians, researchers and industry experts associated with the field of Pharmaceutical Regulatory Affairs. It will deliver an overview of the current and future state of regulatory affairs.

Objectives of the conference:

To discuss the following aspects of Regulatory Affairs:

- 1.Importance and Scope in pharma industry
- 2.Regulatory procedure manual
- 3.Regulatory Compliance
- 4.Good Regulatory Practices
- 5.Conflicts and Solution Trends in Regulatory issues
- 6.Drug Design and development for compliancing with Regulatory Policies
- 7.Code of Federal Regulations

Who Can Attend?

The conference is targeted to all those who are interested in regulatory affairs. Students, Academicians and industry person are likely to get predominantly benefited.
